Education

Thu Duc College of Technology (2020 – 2024)

Major: Information Technology – Focused on Fullstack Web Development

Core Skills

- **Backend:** PHP (Laravel), Node.js (Express), RESTful APIs, Authentication, Caching (Redis), Socket.IO
- **Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap, Shaden UI, Zalo MiniApp
- **Database:** MySQL, Firebase, MongoDB
- **DevOps & Tools:** Docker, Git, WSL Ubuntu, Postman, Composer
- **CMS:** WordPress Development, Payload
- **Security:** SQL Injection, XSS, CSRF Prevention
- **Soft Skills:** Problem Solving, Teamwork, Adaptability, Leadership

Career Goals

Motivated Laravel & React Developer with strong experience in building full-stack web applications and CRM systems. Seeking to grow into a Mid-level Developer role, focusing on scalable architecture, system optimization, and DevOps integration.

Experience

Freelance Web Developer | 08/2025 – Present

- Designed and developed custom websites using React.js, Next.js, WordPress, and PHP.
- Improved page load speed and SEO performance by optimizing queries and assets.
- Deployed applications with Docker and implemented CI/CD workflows for faster delivery.

Fullstack Developer & Admin Manager – PHUC LOC PHAT FRUITS CO., LTD | 08/2024 – 06/2025

- Built and managed an e-commerce website using WordPress and MySQL.
- Implemented features like order management, authentication, and email notifications.
- Increased system reliability and performance by optimizing backend workflows.
- Live project: <https://phuclocphatfruits.com>

Junior Developer – AEGONA CO., LTD | 03/2024 – 07/2024

- Customized and optimized client websites using React.js, WordPress, PHP, and MySQL.
- Developed Zalo Mini Apps with interactive UI to enhance customer engagement.
- Containerized applications with Docker for faster environment setup.

Achievements

- Delivered 3 production-grade systems (CRM, E-commerce, MiniApp) with high client satisfaction.
- Improved system load time by 30–40% through performance optimization.
- Built internal automation tools that reduced manual tasks by 50%.

CRM Garazone.vn | 08/2025 – Present

- Led the development of a full-featured CRM platform using Laravel (backend) and React.js (frontend).
- Implemented modules for customer management, stock tracking, and sales operations, integrating Zalo Official Account API to centralize customer interactions.
- Applied RBAC to manage multi-level admin access and enhanced security.
- Optimized database queries and implemented Redis caching, improving response times by ~30%.
- Deployed using Docker, integrated background jobs for auto reminders and scheduled reports.

Hà Tĩnh Local | 05/2026 – 06/2026

- Built and maintained HaTinhLocal.vn, a tourism and local business platform using Next.js, React.js, Payload CMS, PostgreSQL, and TypeScript.
- Improved SEO performance through structured data, dynamic sitemap generation, and optimized page rendering strategies.
- Developed REST APIs, content management workflows, and cloud storage integration with Cloudflare R2.
- Automated deployment processes using Docker and CI/CD, reducing release time and improving system reliability.
- Live project: <https://hatinhlocal.vn>

Movie App (Personal Project) | 12/2024 – 01/2025

- Developed a responsive web app using Next.js, integrating third-party movie APIs.
- Deployed and managed on Vercel, ensuring stable performance and user experience.
- Live project: <https://tranduc-movies.vercel.app>
